UPDATED! Equimax Additional First Year Commission

Equitable Life of Canada has updated the Additional First Year Commission on Equimax participating whole life policies effective January 1, 2014. The Equimax Additional First Year Commission is an additional amount of commission that an advisor can earn by achieving a specified level of Equimax sales in a calendar year. For details of the 2014 qualification requirements & payout details, please see the updated Producer Commission Schedule. Login to EquiNet and check it out. You can find it under the Online Tools & Information tab. Click on Contracting & Payroll. Then click on the Compensation tab.

The continuation of the Equimax Additional First Year Commission, as well as the qualification requirements and amount to be Credited will be reviewed by Equitable Life on an annual basis and may be changed or discontinued.
